

Emergency Response Assistance Canada

Since its inception more than 39 years ago, Emergency Response Assistance Canada (ERAC) has provided a quality system approach to manage emergency responses for the petroleum, transportation and agriculture industries. As a national, not-for-profit

organization, we continue to evolve to meet the needs of our member organizations. Our commitment to excellence has allowed us to become the benchmark for emergency preparedness and response for flammable gases and liquids in Canada.

GIS Specialist

Are you a geospatial professional who is looking to land with an organization that offers a great work-life balance, competitive salary and benefits, and a diverse and equitable working environment? Then, we may have the role for you!

The GIS Specialist position is a great opportunity for an individual to gain knowledge, experience, and professional growth, while supporting ERAC's emergency management preparedness and response program to assist our Plan members, Operations department and other stakeholders.

Reporting to the Safety & Emergency Management Director, the GIS Specialist will oversee all facets of ERAC's GIS solutions, including administration and management of ArcGIS Online systems and existing solutions (Experience Builder, Dashboards, Survey123, etc.), automated workflows, data management, and programming. The GIS Specialist will utilize their skillset with the entire Esri technology stack, and work with application users, project teams, and other internal and external stakeholders, to ensure system stability and growth. All duties are to be carried out while keeping ERAC's mission, vision, and values top of mind.

The successful candidate will possess:

- Post-secondary degree or diploma in GIS or related field.
- Minimum 4 years' progressive technical experience in GIS, with strong spatial and aspatial data creation, management and analysis skills.
- Expertise with ArcGIS Pro, and significant knowledge and working experience of ArcGIS Online content and user administration.
- Working experience with Survey123, ArcGIS Dashboards, Experience Builder, Hub Sites, Assistant, Make.com, PowerAutomate and Python script execution.

Benefits and perks of working at ERAC:

- extended health and dental benefits
- employee assistance program
- wellness spending account

- employer RRSP contribution
- annual discretionary bonus
- hybrid working model

Location: Calgary, AB

Employment Type: Permanent, Full-time

Compensation: \$77,950 - \$93,500, compensation offered will be based on skills, knowledge and experience

Please submit your cover letter and resume to the attention of Human Resources at info@erac.org.

We thank all applicants for their interest in joining our team, however, only those candidates with the skills and experience closely matching our stated requirements will be selected for an interview.
